PROFESSIONAL SUMMARY

- Detail-oriented **Full Stack Developer** with **1.5 years of experience** in the **MERN stack** and hands-on expertise in **DevOps practices**, delivering scalable, secure, and high-performance web applications.
- Proficient in building RESTful APIs, deploying cloud-based applications, and optimizing system performance for scalability and reliability.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), Node.js, Express.js, React.js, Redux, Socket.IO

Databases: MongoDB, Mongoose, Redis

DevOps & Cloud: Docker, GitHub Actions (CI/CD), AWS EC2, AWS S3, Nginx

Tools & Platforms: Git, GitHub, VS Code, Postman, Linux, Netlify, Vercel

Development Practices: RESTful APIs, JWT Auth, RBAC, API Security, MVC Pattern, Agile, Unit Testing

Others: Tailwind CSS, Stripe Integration, API Documentation (Swagger/Postman)

PROFESSIONAL EXPERIENCE

Codechaps Technologies Pvt. Ltd.

Jun 2025 – Present

Full Stack Developer (MERN)

Noida, India

- Spearheading end-to-end development of high-performance platform — **Rize** — using the **MERN stack**, with clean architecture and modular component design.
- Architected and deployed production-ready APIs on **AWS EC2**, leveraging **Docker** and **GitHub Actions CI/CD pipelines** for zero-downtime deployments.
- Engineered secure authentication and role-based access systems, integrating caching with **Redis** and optimizing database queries to boost efficiency by **35%**.
- Collaborated cross-functionally with frontend and design teams to deliver seamless, scalable, and user-centric web experiences aligned with business goals.

Chetu India Pvt. Ltd.

Dec 2024 – May 2025

Backend Developer Trainee (Node.js)

Noida, India

- Developed and optimized RESTful APIs for a high-traffic eCommerce platform handling **500+ daily transactions** using **Node.js, Express, MongoDB, and TypeScript**.
- Integrated **AWS S3** for secure file management and streamlined cloud storage operations.
- Enhanced system reliability by implementing **Redis caching**, reducing API latency by **30%**.
- Configured deployment pipelines with **GitHub Actions** and automated server updates for seamless releases.
- Collaborated with frontend, QA, and DevOps teams to deliver robust, production-ready solutions ensuring performance and scalability.

PROJECTS

HiboTalk (Live) | MERN Stack, AWS EC2, AWS S3, Socket.IO

2025

- Built a scalable full-stack mentorship platform with session booking, community discussions, and resource sharing — deployed live on **AWS EC2** with **AWS S3** media storage.
- Implemented **JWT-based RBAC** for mentor, mentee, and admin roles with secure **RESTful APIs** and optimized MongoDB queries for high user concurrency.
- Developed real-time features via **Socket.IO** and advanced functionality including file uploads (PDF/video), wishlist, likes, and dynamic dashboards.

CoinChange Crypto (Live) | React.js, CoinGecko API, Tailwind CSS

2024

- Developed a real-time cryptocurrency tracking app in **React.js** with live price updates, market trends, and coin detail pages.
- Integrated **CoinGecko API** for live market data; implemented search, filtering, and fully responsive UI deployed on **Netlify**.

EDUCATION

IMS Engineering College

2020 – 2024

B.Tech, Computer Science and Engineering

Ghaziabad, UP, India
